

Dodd Group has been appointed by Delaware North to fit out the catering kitchens and kiosks for the London Stadium 185, formally the Queen Elizabeth Olympic Park Stadium; the focal point of the 2012 London Olympic Games.

From 2016 the stadium will become the new National Centre for Athletics as well as home to West Ham United Football Club and the Newham and Essex Beagles Athletics Club.

Working to a nine week programme, the fast track £2.3m M&E fit out will be completed in time for the Morrisons Great Newham Family Run in July 2015. The stadium will also host this summer's Barbarians Rugby Match vs Samoa and five matches for the 2015 Rugby World Cup.

John Kavanagh, Group Managing Director, commented " We have recently secured a number of very high profile projects throughout the UK and are looking forward to a very busy time ahead. The construction sector is definitely moving in a positive direction and the next 12 months may well be the busiest in our 68 year history."
