

Dodd Group latest project win in the South West region will see them providing MEP services for the restoration of Courtlands, a beautiful Grade II listed Georgian mansion overlooking the Exe Estuary.

The project is the brainchild of the two-Michelin-starred chef Michael Caines MBE and his team who are restoring the grade II listed Georgian mansion 'Courtlands' to a 60 covered restaurant and 21 bedroomed hotel to be known as Lympstone Manor Hotel, opening in early Spring 2017.

Ron Butt, Dodd Group's regional manager in the South West, is delighted to be involved in this prestigious scheme. He commented "We are thrilled that we have been chosen for the Lympstone Manor project. Working for a two-Michelin starred chef to help deliver his vision is going to require all of our expertise at working on historic buildings coupled with exacting attention to detail as the project will be all about quality".
