

CORNWALL LANDS DOUBLE AND PLYMOUTH FOLLOWS SUIT

Dodd Group has been appointed by Kier to deliver the MEP services installation for two schools in Cornwall: Cubert Primary School in Newquay and Tregolls Primary School in Truro. We look forward to working with Kier on these two schemes and to building an excellent relationship in the region.

Keeping up with success in Cornwall our Plymouth branch has also landed two projects, but this time with existing customers.

We are delighted to have been appointed by Morgan Sindall to deliver the MEP services associated with the refurbishment of the WC areas with the University of Plymouth library. As we conclude the delivery of the Davy lab refurbishments for the UoP with Morgan Sindall, the entire team will now continue on to the recently secured project.

The Plymouth branch has also secured its second contract this year with Plymouth Community Homes. Following on from the successful delivery of the Marlborough House project we have been appointed to work as main contractor for the delivery of a new central plantroom along with associated controls at Ron King House.
