

Doddgroup's Southampton office has secured another landmark project in the city: Meridian Waterside with Inland Homes plc. The development site has been empty for over 10 years since Meridian TV's exit from the area, despite various considerations for its use. Inland Homes PLC has recently committed to the site with an exciting redevelopment plan that is set to transform the area and the immediate sky line.

Matt Clarke, Regional Manager commented *"We are very excited to be part of this iconic project which we look forward to adding to our portfolio of important projects within Southampton. It's an ongoing privilege to be part of Southampton's development with both this project and our existing contracts in the area.*

*Meridian Waterside promotes local development which is very important; this allows ourselves to once again invest into the community utilising local labour and staff to deliver our works. We will be continuing with our apprentice scheme onsite and offsite with our local training partner City College Southampton on the Project"*
