

Dodd Group has been appointed by a new client, Enelco Building Company, to carry out the MEP design and installation for the remodelling of an existing gym into a study suite for the post-graduate students studying at Falmouth University.

This project, located at the University's Penryn Campus is a fast track project with completion needed for the 19/12/16 and will be delivered by our Cornwall team Chris Phillips, Kit Watkins and new member Pete Phillis.

We are delighted not only to be working with a new South West contractor. Newton Abbot based Enelco Building Company, but also to continue our relationship with Exeter University which partners Falmouth at Penryn campus
