
PROJECT NAME:

Midlands Schools - Interserve Construction

LOCATION:

Various

M&E ORDER VALUE:

Various

CONTRACTOR:

Interserve Construction

M&E DESIGN AND BUILD:

Dodd Group

Dodd Group has been employed by Interserve Construction to design and install the MEP services to a batch of West Midlands schools. Our in-house design team worked with the stakeholders and individual schools to develop the design brief from initial stage 2 performance scopes, through each of the design gateways to full stage 5 installation designs which were compatible with the existing school wide services. These incorporated DFE requirements. Both Colmers High School and Beacon College are BIM compliant to LOD 300 with full COBIE data for the final as fitted model handover.

Completed Projects:-

Shireland Collegiate Academy - Smethwick:- New Teaching Block and Dining Room Extension. Value: £914,000
