

Our Contract Manager Dean Gallagher was on site this week in Balsall Heath where Channel 4 and Kevin McCloud were filming Dodd Group at work on a retrofit decarbonisation project.

The programme will feature in Channel 4's series called The Big Climate Fight which will air during a season of Channel 4 programmes dedicated to exploring solutions to the climate crisis.

Thank you to the residents of the properties concerned for allowing the film crew in and for taking part in this fabulous community led initiative.
