
PROJECT NAME:

Universities of Leicester Neo-Natal Unit

M&E ORDER VALUE:

£2.4 million

CONTRACTOR:

Interserve

CONSULTANT:

Capita

NEC3 Option A Contract

The new unit spanning 1711 square metres comprises a Neo-Natal Intensive Care Unit (NICU); High Dependency Unit (HDU); Special Care Baby Unit (SCBU); 24 intensive and special-care cots; three parents' bedrooms; a play area; quiet rooms for parents; a reception and waiting room area; and new equipment.

Interesting fact: On-going surgical operations continued on the floor below and a live maternity ward on the floor above made conditions challenging for our site team.
