

The annual Association of Gas Safety Managers (AGSM) Awards took place recently and we're proud to say that Dodd Group were finalists for two categories. Partnership and Collaboration of the Year: for this, we nominated our contract with Solihull Community Housing. We shared with AGSM our achievements in exceeding KPI targets, reducing costs, our strong IT integration, collocation, our social value commitments and our work towards supporting mental health issues. Women in Safety and Compliance Award: Dodd Group nominated Jackie Keogh from the Solihull partnership for this award. We told AGSM about her diligent safeguarding, her experience in mentoring, her devoted tenant liaison work, her engineering work and even shared with them some commendations from colleagues. A huge congratulations to Jackie for becoming a finalist.
