

High praise has been given to Steve Sargeant and his team in Stockport concerning site safety processes. Virgin Media Head Site Inspector David Hannam said the following:

“The Dodd Group seem to be leading the field at the moment when it comes to site safety/awareness etc. They have put processes in place to ensure their guys take pictures of signing in books, FM200 etc. It might be worth chasing up exactly what they do and sharing it as best practice? Or we could just say keep up the good work!”

Well done to Steve and his team!
